DREXEL HERITAGE OPENS ALL-NEW SHOWROOM HIGHLIGHTING IMPRESSIVE NEW PRODUCTS

HIGH POINT, NC - October 2014 - Drexel Heritage is poised to impress at the Fall High Point market with its entirely new showroom in the historic Market Square building, and several stunning new product introductions. Specifically, Drexel Heritage is refreshing its portfolio with two bedroom/dining room/occasional collections featuring updated classic designs with modern elements, scale and function.

Valmoral is a classic 19th century design of the Directoire period executed in American walnut with a truly unique silvery gray rubbed finish with aged silver accents. Luxurious appointments abound in this elegant collection of bedroom, dining room and occasional pieces.

Athénée is inspired by designs of 1940's France. This collection is executed in American walnut with a soft, clean and luxurious walnut finish, with beautiful champagne hardware. Sumptuous lines define the collection. The poster bed that anchors the bedroom collection has elegant bed posts and a gorgeous radiating pattern of American walnut on the headboard. A rectangular dining table and two options for round dining tables and unique supporting chairs complete the dining room. Unique occasional pieces add to the collection.

The Drexel Heritage upholstery has been "re-imagined" with new designs while maintaining a fully customizable format. While rooted in history, these new designs have a fresh transitional grace and complement well the two new case goods collections.

D20173-S **Noah**—English arm wing sofa with an architectural base and tapered legs.
